SUMMARY FROM LAST MEETING

Agenda (14:00-14:45)

- 1) ULC purpose and organization
- 2) SPS
- 3) Program suggestions/comments
- 4) Topics from the floor

Suggestions so far...

*I have brought all 3
to the UAC.*

- Move E&M to second year from first year (so that it is continuous with P455 and P457)
- Have more 'hands-on' labs in astro program, and have a mandatory 'senior research project' specifically for astro program (like P598 or P599).
- There is a breakdown in communication regarding marking done by anonymous TA's. Profs have to 'remark' TA work, or won't address it at all. Can students have access to the TAs or at least be informed as to how errors in marking will be dealt with?

Agenda (11:00–11:50)
